## ***FIRE SEASON SAFETY TIPS*** ***HOW CAN YOU HELP?***

### **VEGETATION SURROUNDING YOUR HOME:**

Remove and/or replace flammable native vegetation around your home for a minimum of 30 feet.

Remove dead limbs overhanging your roof and any limb within 10 feet of your chimney.

Work with neighbors to clear common areas between houses, and prune areas of heavy vegetation that are a threat to both.

Clear pine needles, leaves or other debris from the roof of your house and any other buildings on your property.

Check and clean your roof and gutters several times during the spring, summer and fall to remove debris that can easily ignite from a spark.
